

## Communication

|                      |                                  |
|----------------------|----------------------------------|
| <b>Date</b>          | 29 June 2026                     |
| <b>Team ID</b>       | N/A                              |
| <b>Project Name</b>  | Rising Waters – Flood Prediction |
| <b>Maximum Marks</b> | 1 Mark                           |

### Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

| S.No | Communication Type     | Frequency | Channel / Tool               | Participants                | Purpose                                                                          |
|------|------------------------|-----------|------------------------------|-----------------------------|----------------------------------------------------------------------------------|
| 1    | Team Standup           | Daily     | Google Meet / WhatsApp       | All Team Members            | Discuss daily tasks, assign responsibilities, and monitor project progress.      |
| 2    | Progress Update        | Weekly    | Google Meet / GitHub         | Team Members & Mentor       | Review weekly progress, discuss completed modules, and plan upcoming activities. |
| 3    | Issue / Bug Discussion | As Needed | WhatsApp / GitHub Issues     | Development Team            | Resolve coding issues, model errors, and application bugs quickly.               |
| 4    | Stakeholder Review     | Bi-Weekly | Google Meet / Presentation   | Mentor & Project Team       | Present project milestones, receive feedback, and improve the application.       |
| 5    | Final Demo Rehearsal   | Once      | Microsoft Teams / Google Mee | Entire Team                 | Practice the final project demonstration and validate all application modules.   |
| 6    | Documentation Review   | Weekly    | Google Docs                  | Documentation Team & Mentor | Review project documentation and ensure report quality before submission.        |

### Communication Challenges & Resolutions:

| S.No | Challenge Faced                                                              | Resolution / Action Taken                                                                                        |
|------|------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| 1    | Difficulty coordinating team members due to different schedules.             | Fixed a common meeting time and used WhatsApp for continuous communication and updates.                          |
| 2    | Machine learning model integration and prediction errors during development. | Debugged the Flask backend, verified the dataset, retrained the model, and tested multiple prediction scenarios. |
| 3    | Managing documentation and code versions among team members.                 | Used GitHub for version control and Google Docs for collaborative documentation to avoid conflicts.              |
